Clubs

**Academic
Curriculum**

**Behaviour
Curriculum**

**Readiness
Curriculum**

Clubs at Kingsmead form a part of the Readiness Curriculum which aims to develop well-rounded students, equipped with the skills, knowledge and traits to thrive in their future and the wider world.

Through our clubs offering, students are given regular opportunities to explore new interests, develop their talents, build their confidence, and develop skills beyond the classroom.

Our clubs programme is designed to provide a broad range of experiences that cover the five areas of enrichment recommended by the Department of Education:

-  Civic Engagement
-  Arts and Culture
-  Nature and the Outdoors
-  Sports and Physical Activity
-  Wider Life and Future Skills

Our clubs programme is continuously updated and we are committed to ensuring the programme reflects the interests of our students while exposing them to new interests and experiences.

Readiness Curriculum Key Skills

Clubs at Kingsmead give students valuable opportunities to develop and demonstrate key skills that are essential in the workplace. Through activities that encourage communication, teamwork, problem-solving and more, students gain practical experience and build skills that will support them as they progress towards future education and career opportunities.

Students are encouraged to evaluate their own skills and consider pursuing enrichment opportunities that develop skills in areas where they may be less confident.

Listening

Listening is the ability to pay attention to what others are saying, understand their ideas, and respond thoughtfully. Good listeners take in instructions, advice, or feedback and use it to improve.

Speaking

Speaking is the ability to express ideas clearly and confidently in front of others, whether in a discussion, performance, or everyday conversation. It also involves adapting your tone and language to suit the situation.

Problem Solving

Problem solving means finding solutions to challenges by thinking critically, analyzing the issue, and testing different approaches.

Creativity

Creativity is the ability to think of new ideas, make connections, and come up with innovative solutions or artistic expressions.

Reading

Reading is the skill of understanding and interpreting written texts, from instructions and information to stories and articles. It builds knowledge, expands vocabulary, and strengthens critical thinking.

Resilience

Resilience means staying determined and bouncing back from setbacks or challenges. It is about keeping a positive mindset and learning from mistakes rather than giving up.

Planning

Planning is the ability to organise time, resources, and actions effectively to achieve a goal. It involves thinking ahead, setting priorities, and anticipating possible challenges.

Leadership

Leadership is guiding and motivating others, setting a good example, and helping the group achieve its goals.

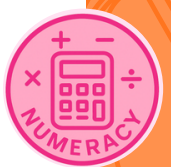

Teamwork

Teamwork is collaborating with others, sharing responsibilities, and supporting each other to achieve common goals.

Numeracy

Numeracy is using and understanding numbers, data, and mathematical concepts to solve problems.

Writing

Writing is expressing ideas clearly and accurately in written form, whether stories, reports, or notes.

Independence

Independence is working on your own, taking initiative, and managing your own tasks without constant supervision.

Civic Engagement

Civic Engagement activities give students an understanding of current events, social issues and the wider world around them, while developing skills in public speaking and problem solving.

Through opportunities to discuss, investigate and respond to real-world issues, students develop the knowledge and confidence to participate positively in their communities.

By working collaboratively, expressing their views, and considering different perspectives, students learn to engage constructively with others and make informed decisions.

Outside of the clubs programme, students have opportunities to engage with student voice through the School Council and Ambassadors programmes. There are also various opportunities for students to volunteer, fundraise and campaign for charities and social causes throughout the year.

Future Fuel!

Tuesdays

M10

Ms Jean-Louis

If you are someone who wants to make a difference, or if you consider yourself a leader then look no further! At Future Fuel, you will **become a TfL Pioneer**, helping the school **maintain our Gold Award status**.

This will mean we consider our environment and various ways that we can reduce our carbon footprint and become more ECO friendly. You will also have fun, developing key skills that will help you prepare for successful futures, including the opportunity to **work towards achieving a recognised Leadership Award**. In addition to this, you will be involved in thinking about our school community and the opportunities available to students, giving you the chance to **become a Careers Ambassador** and represent the student voice!

Debate Club

Mondays

G1

Ms Moneypenny

Think you can argue your point and convince others? Join Debate Club to **explore interesting current topics, share your opinions** and **develop your confidence in speaking**. You'll learn how to build strong arguments, challenge ideas respectfully and think on your feet – all while having fun!

Arts & Culture

Arts & Culture activities develop students' skills, confidence and knowledge in a broad range of performing, visual, and literary, arts and culture.

Through opportunities to create, perform, read, write, watch and respond to a range of arts and culture, students develop their creativity and an appreciation of different perspectives. Activities cover a range of areas such as music, drama, dance, film, literature, visual arts, crafts, games and cultural traditions, providing opportunities for students to discover new interests and share their own ideas and experiences.

Students develop key skills, particularly in creativity, communication, collaboration and critical thinking. By engaging with arts and culture activities, students develop confidence, curiosity and the ability to communicate and collaborate effectively.

Drama Club

Thursdays
Drama 2
Ms Birks and Ms
Lamrhari

In Drama Club this term we will be learning lots of new skills and creating pieces for our Christmas show that will take place in our school theatre in December.

Dance Club

Wednesdays
Gym
Ms Dyson and Mrs
Hare

In dance club this term we will be creating a dance for our Kingsmead Christmas show that will take place in our school theatre in December.

Jazz Band

Do you play a musical instrument? Bring your instrument and come along to Jazz Band as we work towards our performance at the Christmas show case.

Fridays

Mr Shekerali

Orchestra

Do you play a classical musical instrument? Bring your instrument to Orchestra and play as part of a group as we work towards our performance at the Christmas show case.

Wednesdays
MU1

Choir

Do you want to learn how to control your voice while singing as part of a group? Come along and learn to sing as part of a choir as we work towards performances.

Wednesdays
Art 4
Ms Hartley & Ms Itang

Pottery Club

Tuesdays
Art 4
Ms Aktas

Pottery Club is a fun and creative after-school club where students can make and decorate their own clay pieces. Students will learn simple pottery techniques, explore their creativity and enjoy making something they can take home and be proud of.

Braiding Club

Tuesdays
Ms Hussein and Ms Aning

Learn a variety of techniques and styles to braid hair in this relaxed environment.

Emroidery Club

Thursdays
FT2
Ms Flamuri

Learning stitches and embroidery techniques, working on personal or group projects, socialising with other people who enjoy sewing/crafts, and sharing patterns, ideas, and tips!

K-Drama Club

Come along to watch K-Dramas and explore Korean culture through film and television! Discuss your favourite shows, characters and storylines in this environment dedicated to Korean Dramas.

Tuesdays
S8
Ms Ndosimao

Turkish Film Club

Turkish Film Club is a welcoming space for anyone interested in Turkish cinema, culture, and storytelling. We come together to watch a variety of Turkish films, from timeless classics to modern favourites, followed by friendly discussions and shared perspectives. Everyone is welcome, no knowledge of Turkish or Turkish cinema is required!

Mondays
DT1
Ms Akkoc

Anime Club

Love anime or curious to see the hype? Join us for weekly screenings where we watch everything from classic favorites to the latest hits. No experience necessary — just show up, grab a seat, and enjoy the show with fellow fans.

Mondays
ME1
Ms Soteriou

Disney Movie Club

Watch Classic Disney movies with memorable and magical characters capturing a world of wonder, family-friendly fun, and timeless storytelling!

Wednesdays
M1
Ms Syeda

Dungeons & Dragons

Thursdays
B3
Mr Johnson

Step into a world of adventure, imagination and storytelling! In Dungeons & Dragons Club, students will create characters, work together as a team and embark on exciting fantasy quests. Develop creativity, problem-solving and communication skills while making new friends.

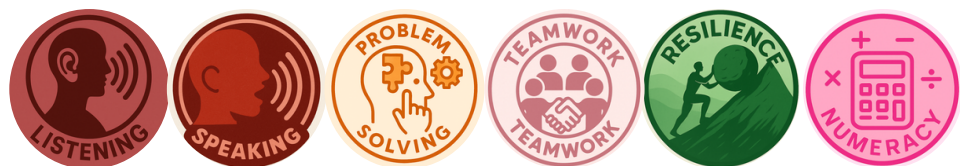

Cards and Board Games Club

Develop your teamworking, problem-solving and communication skills while learning to play different cards and board games from different countries and origins!

Tuesdays
L4
Mr Gomez

Creative Writing Project

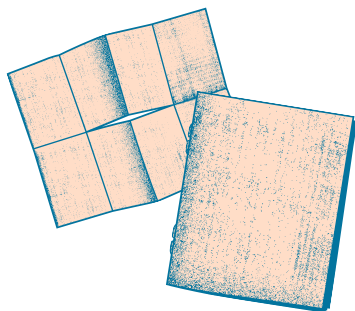

Mondays
Library
Mrs Collins

Write your own creative non-fiction novel!
Come to this workshop style club, where you'll create your own creative non-fiction novel based on the life story of an elder in your family.

Zine Club

Mondays
DT2
Ms Lusty

Explore the world of zines! Whether you are into painting, drawing or writing, come and turn your ideas into unique pieces of storytelling. Perfect for students interested in Art, Graphics or Creative Writing.

Between the Lines

Tuesdays
E5
Ms Nicholau

Come along to discover new books, share your thoughts, and enjoy reading for pleasure with friends.

Y10-13

Book Club

Come to book club where we talk books, read books and share books!

Thursdays
Library
Ms Nordin

Archeology Club

To discuss, debate and develop theories concerning archaeology matters and civilizations.

Wednesdays
H5
Mr Lyons

Wider Life & Future Skills

Wider Life & Future Skills activities develop students' knowledge, confidence and skills across a broad range of practical and academic interests, preparing them for future education, employment, and life beyond school.

Activities encourage students to develop areas such as problem solving, communication, digital skills, financial awareness, independence, decision making and practical life skills, while providing opportunities to pursue academic interests beyond the curriculum.

Students develop key skills, particularly in problem solving, communication, resilience and self-management. Students build confidence, independence and transferable skills that can support them in their future education, careers and personal lives.

Coding Club

Thursdays
Com3
Mr Comach

Code, create and collaborate: learn how to code in a fun Coding Club where older and younger students learn together!

Y7-12

Chess Club

Mondays
H2
Mr K

Come along to Chess Club to learn, play and improve your chess skills! Whether you are a complete beginner or already know how to play, everyone is welcome. Friendly and competitive games with tournament style days with prizes!!!

PL Fantasy Football

Mondays
Com3
Mr Burke

Premier League Fantasy Football club is a fun after-school group where students pick real football players, score weekly points, and compete for the top spot in a private league.

Tea & Talk

Tea and Talk Club is a welcoming space where students can unwind, relax, and take a break from the pressures of school life. Over a cup of tea and friendly conversation, students can connect with others, share experiences, and focus on their wellbeing. The club provides a calm and supportive environment to help students reset, recharge, and promote positive mental health.

Tuesdays
S9
Ms Abdulkadir

Cooking Club

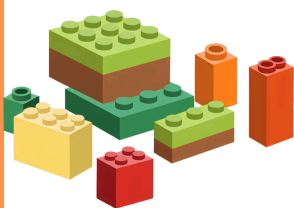

Do you enjoy food, being creative, and learning new skills? Then Cooking Club is for you! At Cooking Club, you'll learn how to prepare and cook a variety of tasty dishes, develop practical kitchen skills, and build confidence in cooking independently. You'll have the opportunity to try new recipes, work with friends, and eat what you cook. Whether you're a complete beginner or already enjoy cooking at home, everyone is welcome. Come along, get involved, and take home something delicious to share with your family!

Mondays
FT4
Ms May & Ms Ormsby

Lego Builders

Build it, Create it, Imagine it! Calling all Lego lovers! Come along to Lego builders club, where you can get creative, take on exciting building challenges and bring your ideas to life. EACH WEEK THERE WILL BE A NEW THEME OR CHALLENGE!

Mondays
G5
Ms Beheshti

Axioms

Year 7 and 8 Maths challenges for keen mathematicians!

Wednesdays

Mr Kabambe

Sports & Physical Activity

Sport & Physical Activities promote healthy habits and student wellbeing, while allowing students opportunities to develop their skills and sportsmanship in a range of sports.

Activities encourage students to understand the importance of perseverance, fair play and working as part of a team.

Alongside the clubs programme, students have regular opportunities to compete in sports fixtures against other schools. Students are contacted about these opportunities when eligible.

Tuesday

Futnet

Wednesday

ALL sports run from 2:24-4pm.

Nature & the Outdoors

Nature & the Outdoors enrichment activities allow students to explore the natural world and develop an understanding of the importance of nature, sustainability and the environment.

By working collaboratively and taking part in practical activities, students develop confidence, independence and an understanding of how they can engage positively with the natural environment.

At Kingsmead, these opportunities exist outside of the clubs programme, in the form of residential trips, the Duke of Edinburgh Programme and the Climate Ambassadors programme. Students are contacted when these opportunities arise.
